Again, I would urge careful consideration of the case summaries noted above before contacting this lawyer.

UPDATE

Kublan emailed the below text to my legal representative shortly after the above post appeared. Here, Kublan explicitly threatens to falsely claim I have engaged in "stalking" towards obtaining a court's protective order against me. The act Kublan threatens, in my view, represents egregiously poor legal ethics and a willingness to abuse the court system. I have omitted the last name of my lawyer; otherwise, below I have posted Kublan's email with complete accuracy and in full.

An electronic search of Fairfax circuit court records indicate Kublan has initiated unsuccessful defamation suits. This practice in my view lends further credibility to an assertion echoed among others on this page that Kublan's threats have coerced the removal of negative reviews.
